WORK EXPERIENCE

Research Trainee, Central Disease Investigation Laboratory, Dhaka **June'25- Dec'25**

Project 1: Phenotypic and Molecular Characterization of Biofilm-Producing, Antimicrobial Resistance and Virulence Determinants of *Staphylococcus aureus* from Pet Animals in Bangladesh

Project 2: Pathological investigation and molecular detection of zoonotic diseases in slaughtered animals at slaughtering points in Bangladesh

Key Responsibility:

- Collect and process clinical sample
- Pathogens Detection
- Maintain accurate laboratory records
- Molecular diagnosis
- Safe disposal of biohazards

Research Officer, Infectious Disease Division, icddr,b **June 2024 – September 2024**

Project: Strategies to Prevent (STOP) Spillover (Avian Influenza)

- Supervise ethical sample collection
- Develop and implement research protocols
- Data analysis
- Manuscript and report writing
- Project documentation

Brand Executive, SBMD-Vet, Navana Pharmaceuticals PLC **Feb 2023-May 2024**

Key Responsibility: Data analysis, Conduct scientific seminar, Train field representative and farmer, Scientific promo tools development, Maintain product portfolio, New product development

Research Assistant, Dept. of Microbiology and Parasitology **Jan 2020-Dec 2020**

Project: Occurrence and antibiotic sensitivity profiling of *Staphylococcus aureus* isolated from raw chevon in Dhaka

Key Responsibility: Sample collection and preparation, Bacterial culture and identification, Data collection and analysis, Manuscript writing etc.

RESEARCH INVOLVEMENT IN FUNDED PROJECT

- **Project Title:** Addressing Feed Shortages Through Exploration of Unconventional Feed Resources for Accelerated Livestock Development in Bangladesh, FAO
- **Project Title:** Assessment of Community Supporting Team (CST) Intervention on COVID-19, World Health Organization (WHO)
- **Project Title:** Determining Density of Tobacco Retail Outlets and Patterns of Tobacco Use Near Schools in Dhaka, Bangladesh Center for Communication Programs (BCCP)

RESEARCH & PUBLICATION

Hasnain, N., Khatu, A., Islam, M., and Mannan, M. A. 2023. Occurrence and antibiotic sensitivity profiling of *Staphylococcus aureus* isolated from raw chevon, *J. Sher-e-Bangla Agric. Univ.*, 14(1&2): 17-23

Conference Presentation:

Oral Presentation

“Phenotypic and Molecular Characterization of Methicillin-Resistant *Staphylococcus aureus* Isolates from Pet Animals' Wounds, Focusing on Antimicrobial Resistance and Biofilm Formation”, *Veterinary Vaccine Conference 2025*

“Molecular Detection of Respiratory Pathogens and Associated Multidrug-Resistant *Escherichia coli* in Poultry Flocks” *Veterinary Vaccine Conference 2025*

Poster Presentation

“Prevalence and Antimicrobial Resistance of Respiratory Pathogens in Poultry from Dhaka Live Bird Markets” *Veterinary Vaccine Conference 2025*

POSTSECONDARY EDUCATION

Master of Science (MS) in Microbiology	July 2019 – Dec 2021
---	-----------------------------

Sher-e-Bangla Agricultural University (SAU), Dhaka, Bangladesh

Thesis: “Occurrence and Antibiotic Sensitivity Profiling of *Staphylococcus aureus* Bacteria Isolated from Raw Chevon

Final Cumulative GPA: 3.66/4.00 (72%) (WES- **3.84/4.00**)

Bachelor of Science in Veterinary Science & Animal Husbandry	2014 - 2018
---	--------------------

Sher-e-Bangla Agricultural University (SAU), Dhaka, Bangladesh

Project: “*Cattle Genetics Resources and their Conservation in Bangladesh*”

Final Cumulative GPA: 3.44/4.00 (69%) (WES- **3.52/4.00**)

INTERNSHIP & TRAINING

Faculty of Animal Science and Veterinary Medicine	Oct 2018- April 2019
--	-----------------------------

Major Intern area-

Upazila Veterinary Hospital, Remount Veterinary and Farm Corps (RVFC) in Military Farm, Bangladesh
National Zoo, Mirpur, Dhaka, West Bengal University of Animal & Fishery Sciences, Kolkata, India,
Central Veterinary Hospital, Dhaka, and Central Disease Investigation Laboratory (CDIL), Dhaka

LABORATORY SKILLS

Media Preparation, Microbial culture, Biochemical and serological tests, Bacterial staining, Microscopy, Antibiotic susceptibility test (AST), MALDI-TOF, Nucleic acid extraction (DNA & RNA), PCR & RT-PCR, Gel Electrophoresis, ELISA, Cell Culture, Library Preparation for NGS, Handling laboratory safety, Biosecurity and Biosafety

HONORS AND AWARDS

National Science & Technology Fellowship, Ministry of Science and Technology	2020
---	-------------

Project: Occurrence and antibiotic sensitivity profiling of *Staphylococcus aureus* isolated from raw chevon.

COMPUTER SKILL

- R Programming, Python, Galaxy EU, BLAST, MEGA, MS Office (Microsoft Word, Excel, PowerPoint)

LANGUAGE(S) SPOKEN

Bengali (Mother tongue), **English** (IELTS- Overall Score: **7.0/9.0**), **Hindi** (Elementary)
